Mission Statement:

FSWC provides individual, couple, and family counseling and wellness services to promote individual and relational wellbeing, health, and optimal functioning.

Our symbol of a lotus flower reflects our beliefs on the world and therefore how we deliver services. The lotus flower emerges from mud and murky waters with cleanliness and beauty. We believe that life inherently produces mud and murky waters at times, and that we all have the ability to push through, overcome, and/or bloom with beauty and strength.

The blue lotus specifically represents one's happiness, wellbeing and "victory of the spirit."

Not tied to religion, we hope to use our training and specialties to help our clients find and embrace a sense of hope, peace, and happiness no matter what their journey has been or what they are presently facing. Holistically, we focus on wellness through a biopsychosocialspiritual lens.

Vision Statement:

FSWC strives to be a safe and professional home throughout North Carolina for clients to receive specialized care from a well-trained, ethical, trusting, non-judgmental, and authentic provider.

Practice Values:

Our clinicians value the ethical principles of Autonomy (client right to make decisions for themselves), Beneficence (be helpful), Non maleficence (do no harm), Fidelity (keep promises), and Justice (act fairly). We value customized services as no two clients are alike. We value trust, hope, expertise and authenticity. We honor and respect the uniqueness of each person we treat – their culture, family, values, beliefs and personal identity.
